HOLDER

Kärcher Group

TWO-IN-ONE: HOT WATER WEED CONTROL AND HIGH PRESSURE CLEANING

HOLDER B / C SERIES WITH WRS 200

MOBILE AND VERSATILE: APPLICATIONS AT THE HIGHEST LEVEL

- Hot water weed control – mechanically with front bar or manually using a hand lance
- Professional high pressure cleaning with hot water or cold water
- Removal of chewing gum residues on hard floor coverings
- Irrigation of green areas
- NEW: Disinfection with hot water

OPTIONS FOR INDIVIDUAL NEEDS

- Front bar (1000 mm, 12 main nozzles, 2 side nozzles, hydraulic side adjustment 400 mm, adjustable spray angle, temperature display)
- Water tank (650 l, extension)
- Hand lance (1080 mm with 20 m hose)
- Kärcher Easy!Force high pressure gun
- Weed lances from 10 to 100 cm working width
- Chewing gum remover

YOUR BENEFITS: ENVIRONMENTALLY FRIENDLY, EFFECTIVE AND SAFE

- Non-chemical and effective weed control – with only 4 treatments per year
- Can be used on large areas as well as on footpaths and in hard-to-reach places
- Fully integrated, compact design with a low center of gravity – no influence on the vehicle width
- Powerful burner and high pressure pump with proven Kärcher technology
- Simple, intuitive operation through clear separation of maintenance and control elements
- Fast operational readiness within 2 minutes due to the highly efficient burner
- Automatic decalcification system
- Compact, agile, powerful and comfortable implement carrier vehicle of the articulated Holder B/C series – thanks to its multi-functionality it is also suitable for year-round use

TECHNICAL DATA

HOLDER B / C SERIES*		CLEANING SYSTEM WRS 200	
Motor	Kubota 4-cylinder	Working pressure	up to 200 bar / up to 20 MPa
Power	42 – 48 kW (57 – 65 HP)	Water working temperature	up to 98 °C
Fuel tank	65 l	Temperature at steam level	0 – max. 135 °C
Drive	Hydrostatic all-wheel, continuously adjustable travel speed regulation, sprung front and rear axles	Flow rate	28 l/min
Differential lock	Front and rear mechanical	Fuel	Diesel
Maximum speed	40 km/h	Fuel tank	20 l
PTO shafts	Optional front and rear	Fuel consumption (weed removal)	8 l/h
Hydraulics	35 l/min hydraulic pump with the option to add an additional adjustable pump	Weight	300 kg
