## KUBOTA ZERO-TURN MOWER ZD1211

Kubota's all-new ZD1200 of compact and full-size zero-turn mowers have been engineered from the ground up to deliver quality, performance, comfort, and versatility.

# Cutting grass is the commercial operator's livelihood. And Kubota's ZD1211 delivers the power, durability, and performance professionals want.

Day in and day out, you need a professional turf mower that handles non-stop use—a mower that's manoeuvrable, cost effective, and loaded with the features to make your job easier. That's why Kubota developed the ZD1211 zero-turn commercial mower—to deliver the results your business demands. The ZD1211 offers a state-of-the-art Kubota diesel engine, a high-capacity HST transmission, a deep mower deck, and an ultra-comfortable operating area. In short, the ZD1211 delivers.

## ZD1211

# Mowing deck with smoother airflow and more powerful rotation.

## PRO COMMERCIAL MOWER DECK

To ensure superior cutting performance, even at faster speeds, our newly developed, deeper mower deck utilizes a flat design and our unique new baffling system, which forces grass through all three cutting blades. And, to meet the needs of varying job sizes, the ZD1211 mower deck is available in side and rear discharge versions.

## ANTI-OVERFLOW SYSTEM

*Kubota has enhanced the edges of the mower deck to reduce grass spillage and help keep lawns tidy, particularly in dry conditions.*

**NEW**  
5.5-inch Deep  
Mower Deck

**DUMMY**

## NEW Baffle Design

*The ZD1211's new baffle design improves air flow to discharge grass clippings, optimizing cutting performance.*

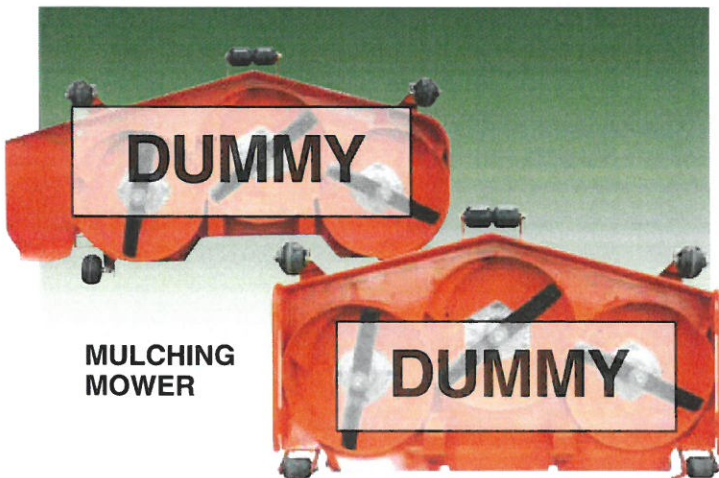

**DUMMY**

**SIDE DISCHARGE MOWER  
AVAILABLE BY SPECIAL ORDER**

**DUMMY**

**REAR DISCHARGE MOWER**

**DUMMY**

**MULCHING  
MOWER**

**DUMMY**

## Rear discharge mower

When side discharge won't do, mount a rear discharge mower deck. Both decks tilt up 90 degrees for easier cleaning and blade sharpening. They also feature sturdy steel construction for greater durability and front lift arms that attach directly over the center of gravity for better control. Mulching kits are also available.

## New mulching kit (option)

The professional mulching kit converts the standard deck into a high-precision mulching deck that produces an even finer mulch and sends it straight back into the turf.

# Engineered for superior cutting performance and outstanding operability.

## ***New large and bright LCD panel***

The large LCD meter—the biggest in its class—shows all of the key indicators you need to maximize cutting performance and operability, including engine oil pressure gauge, water temperature gauge, fuel level, and voltmeter. A new hour meter lets the operator know when maintenance or service is required.

## ***New ergonomically designed control layout***

For faster operation and better ergonomics, all of the mower deck controls are grouped on the right side within easy reach your right hand, letting you quickly and easily adjust the cutting height. A two-tone cutting height adjustment dial is easier to see and simplifies the setting of the cutting height.

## ***New low profile tires***

Low-profile rear tires further improve the ZD1211 stability and traction on turf. Their wide tread helps protect the turf from damage during mowing.

## ***Outstanding stability***

The ZD1211 feature a low center of gravity to help improve the weight/balance and provides stability on slopes and uneven ground. When combined with the ZD1211 long wheelbase wide, large-diameter rear tires, and fuel tanks mounted above the tires and below the seat, the result is outstanding stability on a variety of terrains.

**Kubota  
Original  
Engine**

## **Kubota diesel engines and durable transmission**

With over 25 million engines produced since 1922, Kubota engines are recognized around the world for their proven quality and reliability. Powerful yet clean and quiet, the ZD1211 rugged diesel engines give you unparalleled performance, productivity, and economy. The ZD1211 dependable engines let you power through tough mowing jobs with ease and efficiency. These technically advanced engines are also environmentally friendly, thanks to excellent fuel economy, enhanced combustion efficiency, and low vibration and noise levels. These engines are paired with Kubota's original hydrostatic transmission that offers faster, smoother response under all loading conditions. Except for an occasional fluid change, the hermetically-sealed structure requires no maintenance and has no belts to change.

**Kubota Original Transmission**

### **New HST levers**

Redesigned HST levers not only provide more legroom, but also more settings to choose from, ensuring smoother operation, better zero-turn maneuverability, and greater job efficiency.

### **New damper force adjustment**

Available on several Kubota mowers, this 3-position lever lets you adjust the damper force to the optimum level for your personal comfort.

### **Hands-free parking brake**

Conveniently located on the platform, the parking brake can be easily engaged and released by pressing it with either foot while keeping both hands on the HST levers.

### **Hydraulic deck lift**

A 2-pedal hydraulic deck lift system keeps you mowing in spite of obstacles by letting you easily raise and lower the deck with your foot.

### **Shaft drive mower**

Without drive belts, the drive shaft smoothly transfers power from the engine to the deck. Shaft drive also requires less maintenance and provides greater dependability.

### **Selectable front axle (oscillating/rigid)**

Choose from two front-axle setups to optimize mowing comfort and performance: oscillating for a smooth ride, or rigid for an even cut while mowing on rough terrain.

# Designed to keep you comfortable and productive until the job is done.

## ***New suspension seat***

A more comfortable seat means less operator fatigue and greater productivity. With dual adjustable armrests, higher backrest, and lumbar support, the ZD1211 fully padded and reclining bucket seat ensures a high level of comfort. The seat can be adjusted upward, forward and backward to let operators of all body types find the perfect position that will keep them comfortable and productive all day long.

## ***New, thicker platform mat***

Thicker and more durable, the redesigned platform mat also helps reduce noise and vibration for more comfort during mowing tasks. The mat's grip pattern also has been improved to make getting on and off the mower easier than before.

## ***New and bigger storage box and cup holder***

Store personal items as well as two beverage cups in the handy storage box and cup holder beside the seat.

## **Easy mower and engine access**

The ZD1211 is designed to keep you on the job longer between maintenance stops. When maintenance is needed, however, you can be assured of quick and easy maintenance of all the critical parts and functions. The engine hood protects the engine, yet is simple to open and offers easy access to the engine for maintenance tasks. A special maintenance hatch under the platform mat provides fast access to the upper mower, mower belt, gearbox case, universal joint and oil filter.

## **New foldable ROPS\***

The new ROPS is now compliant with not only OSHA standards, but also ISO standards. The ROPS conveniently folds for easier storage and transportation of the mower.

## **Maintenance lift**

Routine maintenance underneath the mower is quick and simple, thanks to Kubota's innovative two-pin, tilt-up maintenance lift. A simple operation raises the front of the ZD1211 even with the mower deck still attached.

\*The ROPS complies with Occupational Safety and Health act (OSHA) 1928.52, International Organization for Standardization (ISO) 21299.

# Specifications

Model		ZD1211		
<b>Engine</b>	Model	Kubota D1105		
	Type	Diesel, liquid-cooled, 4 cylinders		
	Engine gross power	18.5kW / 3000min-1 ; SAE J1940		
	Displacement	cc	1123	
	Air cleaner indicator	Standard		
<b>Fuel Tank Capacity</b>		ℓ	49	
<b>Dimensions</b>	Overall length	mm	2260	
	Overall width	with mower	mm	1875 (Side) / 1600 (Rear)
		w/o mower	mm	1540
	Overall height	ROPS upright	mm	2000
		ROPS folded	mm	1640
	Wheel base	mm	1440	
	Tread	Front	mm	1064
		Rear	mm	1210
	Weight with mower (w/o fuel)	kg	790	
<b>Tyre size</b>	Front	15 × 6.5-8, Smooth semi-pneumatic		
	Rear	26 × 12.0-16 Turf, Low profile tyre		
<b>Travel speed range</b>	Forward	km/h	0 – 17.0	
	Reverse	km/h	0 – 8.5	
<b>Transmission</b>	2 HST with integrated transaxle			
<b>Mower deck</b>	Discharge direction	Side / Rear / Mulching (available as option for both side and rear)		
	Mower deck construction	Fabricated		
	Deck depth	mm	140	
	Deck steel thickness	mm	4.2, 4.6	
	Mower lift system	Hydraulic lift by foot pedal.		
	Mower deck drive system	Shaft Drive		
	Anti-scalp roller	Swivel		
	Cutting width	cm (in.)	152 (60)	
	Cutting height adjustment	Dial		
	Cutting height range	mm	25 – 127	
	Cutting height increments	in.	0.25	
Number of blades	3			
<b>Front axle</b>	Selective "Fix" and "Oscillating" front axle.			
<b>Maintenance lift system</b>	Standard			
<b>Display</b>	LCD panel (Hour meter, Fuel gauge, Coolant temperature gage, Battery voltage meter)			
<b>Seat</b>	High back deluxe seat with reclining and lumbar support			
<b>Seat suspension stroke</b>	mm	76		
<b>Step open system for easy maintenance.</b>	Standard			
<b>Rops</b>	Foldable			

The company reserves the right to change the above specifications without notice.
